He agreed with the gentleman it at the letter contained an at undance of sound doctrine, but he would have preferred that the president-elect had cone what he had no doubt he would do on the first occasion offered hum-suggested to congress some practical methods by which the circulation, as com, of the two metals, could be reconciled and maintained, for he did not believe it to be desemble or besite that silver should be demonstrated in this country (in the other hand, he thought it the part of statesmanship to recognize the fact which existed, and to bring about reconcilention of the ratio of their value. In his puriquent, the solution of the question was to make a silver dollar were made the equal of the god dollar. If the silver dollar were made the equal of the god dollar were made the equal of the god dollar there would be no reason for placing any restriction whatever on its comas, e, and indeed in this case it might be safe to make silver the sole foundation of the gaper money of the country.

Horr was not surprised that the gratleman from New holk should think be were about to go over to the democratic party, because he remembered that not very long ago the gentleman was a rousing good republican [Laughter] But that was not his style. WASHINGTON, Murch 1 — Important interest and the remainder of the session centers in the

civii bill, and it will be reported to the senate at y o'clock to-morrow morning. The bill has been considerably changed, as respects amounts, but its conspicuous features have been cadded. The deficienty bill will be taken up by the subcommittee to-morrow morning, and it is expected will be reported Tuesday. The fortification bill, which will then be the only remaining regular annual appropriation bill to be considered by the senate, contains erry few items, and will be quictly disposed of Tuesday inght or Wecnesday morning. Palls is conference are Pensions, army, postofice, Indian and lagistative bills. The first two contain no conspicuous features of difference, and a conclusion respecting them will be qually reached. The conference upon the postoffice bill are holding their first unset up this evening, and expect to agree before adjournment upon everything except the so-railed subsidy clause, upon which a second conference will doubtless be required. The legis atthe bill has been agreed to by the conferrees, with the exception of the provision for clerks to senter rs, and it is expected the house will recode from its position in this regard, as it did last year.

The Indian bill presents some difficulties, a solution of which can not at this time be foreseen. Amendments relating to the amounts of the various appropriations have all been agreed to, but proposed new Jegislation since incorporated in the measure by the house, be still at issue, and neither party, menifiests as yet any disposition to recede. The bill to fix the compensation for school clerks, introduced by Ma. Hirsch of Multanomah, was amended in the house so as give the clerks a percentage upon all moneys received, lustend of a percentage upon all moneys collected by local taxatlori. This was a very improper amendment, since the effect of it will probably be to give the clerks a percentage out of loans and state school funds received by the districts. Hirsch and others protested against the amendment, but in vain. Joseph Royes, hving on Third street near Alder, who reported the disappear ance of her little boy, aged 't years. He had wandered to the foot of Washington street early in the morning and was traced to that point, but could not be found. Hence the conclusion that he had fallen into the river and was drowned. The little fallow had walted inside of the wharf and was discovered some time after the mother had made her appearance playfully pitching chips into the water. He was taken to police headquarters and restored to his mother.

SLATE AGRIC CUTCHAT SOURCE.—Now that the legislature has provided a liberal appropriation for the State Agricaltural Society, old creditors are furbishing up their long unipaid bills and equiling it the bright prospect of dipping their hands into the coffers of the state. It is a fine being, "as they say it is time of the crystope for monetal properties of the crystope for monetal properties." As they say it is to be a subject to the crystope for monetal properties and the class of the subject in the schools. At all events there will be an interesting meeting to might be defined at a large at and upon

NALABIEN OF DINTRICT JEDERS bankm, Feb .

I the Project of the Oste Portes Anong the acts of the legislature of question-able wisdom is the one increasing the salaties of district judges to \$2000. That is a higher figure

ture, p esumably urging the increase, was not seemly.

Although the words "naiges of the supreme sourt" are employed in the constitution in fixing the salaries, it is maintained by some that they apply to our district judges now, as at the indeption of the constitution the supreme and district jurges were one and the same—that supreme meant district supreme that supreme meant district and strict supreme. That it could not have been introded that district supreme meant district and then have greater salaries than those of higher rank and harder work. And it is contended that the recent law is in contravention of the constitution, and I hear it sail that application will be made to asjoin the secretary of state from drawing his warrant for more than \$2500 per annum, and that the question will go to our supreme court for final decarmination, and that the the total transfer is reported to regard the spirit as well as the letter of the funcamental law

POSTRAIN OF THE GOVERNORS

TOUTIAND Feb S The appropriation of our legislature for the purchase of the portraits of the governors calls to mind the purctice in one at least of, the other to mind the practice in one at legst of the offici-sintes. In the capitol of New Hampshire are the partraits of all the governors of the colony and state, but the state has never paid for any of them. The relatives of the several governors, or the governors themselves, have presented the state with the portraite, except in a few un-stances of the very early ones, where the lam-like had become extruct, maddle or unwilling to format them, in whath cases the omission was supplied by private subscription. It has growe into a grague that more now neglect, for he governors or family from is at the ex-piration of the terms to place their portraits in

A PHISICIAN'S GLOOMY VIEW

Tor Touglas said "I am in nowise responsible for the resc-colored report that appeared in in a medical journal last week. Two days before the report was published I liad a conversation with Dr Sands at Géneral Grant's house. As a result of the conversation we both decided that the cancerous growth at the root of the tongue was hardening and steadily growing worse. Microscopical examination by an experi proved beyond doubt that the case is of malignant growth Gere'al Grant is a very sick man. I think there is thicking down, but has deplayed much courage, it less than a month be has done as much is six or eight hours' work a day, but he has had little sleep for the past eight days. We have tried to keep all knowledge of his true condition from the general, because is his red condition from the general because is his red condition from the general because is his red condition. On the basic of all his teet. They were extracted in hope of easing the pain in the face. This pain, although it resembles neutralgia, is not that joure and simple, but is a reflection of the pain caused by a cancer in the throat. He has been suffering from secre pain in the right ear and on top of the head. To ease this his head is kept wrapped in bot fiannel. I cannot say how near the end is. He may live for mooths yet, as men suffering from this disease have done, but I do not think there is any hope that he will ever recover."

The Ahianum creek furnishes most excellent water power, and the town is tributary to a large extent of most excellent farming country. Wheat is the principle crop and the sering yield is large, but the soil is suited to the prouption of almostanything in the shape of grain, fruits or yegetables. To bacco would be a very profitable crop in this soil and dimate, while singhum grows to the greatest perfection Colonel Kinney, formerly register of the land off ce, who is known by his Trends as Colonel Schring it as his subject for a lecture every time at lopportunity offers. Notes.

At present the mail arrangement for this induce are very awkwardly arrunged. The route from The Dalles to Yakima by stage is say times per week. The route from Alneworth to Yakima was let as tri-weekly, and was carried by stige unlighter railroad was completed when the contractor had his mail carried on the cars, but as he is only paid for tri-weekly the mail is still colling in this way, although the trains are now in uning daily. It is an important matter to the counties of Yakima and Kittias that this should be increased to a daily route, and if proper a ferts are made it will no doubt soon be done. Colonel Kinney has been superseded as register of the United States land office by J. H. Thomas, Esq. ter of the United States land office by J. H. Thomas, Esq.

W. Carey is to take charge of the postoffice of North Yakuma, and Mr. J. (Macrumman will have charge of the frakuma City postoffice Visitors to lakima City always stop at the Takuma hotel, kept by Mr. Oscar Vansyckle. The best evidence of the zopularity of this house is the fact that it is crowed from top to bottom all the time. Mr. Vansyckle is a popular geutlemun and gives his guests plenty to est and a coinfortable place to sleep, and is one of the gentlemen who proposes to stay with the old fown. New Nork, Feb 23—In regard to General
Grant's health, Colonel Fed Grant said to a
Post rewriter this afternoon "My finiter is a
very sick man. There is no use in longer denying the fact. We have made every effort to keep
the true facts from the public, because we know
that as soon as it should become known that he
was dangerously ill there would be hundreds of
letters coming in with every mail, and this
would only exert him and make the case less
hopeful. My father has had little rest for the

boperoi. My father has had little rest for the past few nights. He was up and about his room for a little while yesterday, and we hope to get him up again to-day, but he is suffering constant path in his ear and head. For any facts concerning the nature of his disease, I refor you to his physicians."

"The doctors who are attending him are Dr. Fordyce Barker, Dr. J. W. Dung as, Dr. W. B. Sands, of this city, and Dr. T. Merker of Philadelobla.
